

## The Rwanda Health Observatory:

A single integrated and inter-operable system that coordinates and links the different data sources together.

“Building strong and resilient M&E system for SDGs monitoring”

# SUSTAINABLE DEVELOPMENT GOALS

*“All citizens have the right of equal access to public services in accordance with their competence and abilities.”*

## The R-HO provides:

- An updated meta data-dictionary to establish clear definitions and ensure all data sources are aware of the required information and how it needs to be generated
- Updated and/or revised standard operating procedures (SOPS) to guide data management and sharing at all levels
- Linkages with the related Ministries for data stored/managed outside of the Ministry of Health to enable reporting on all indicators

BETTER INFORMATION, BETTER ACTION FOR HEALTH

Rwanda Health Observatory

an Instrument for Health System Strengthening

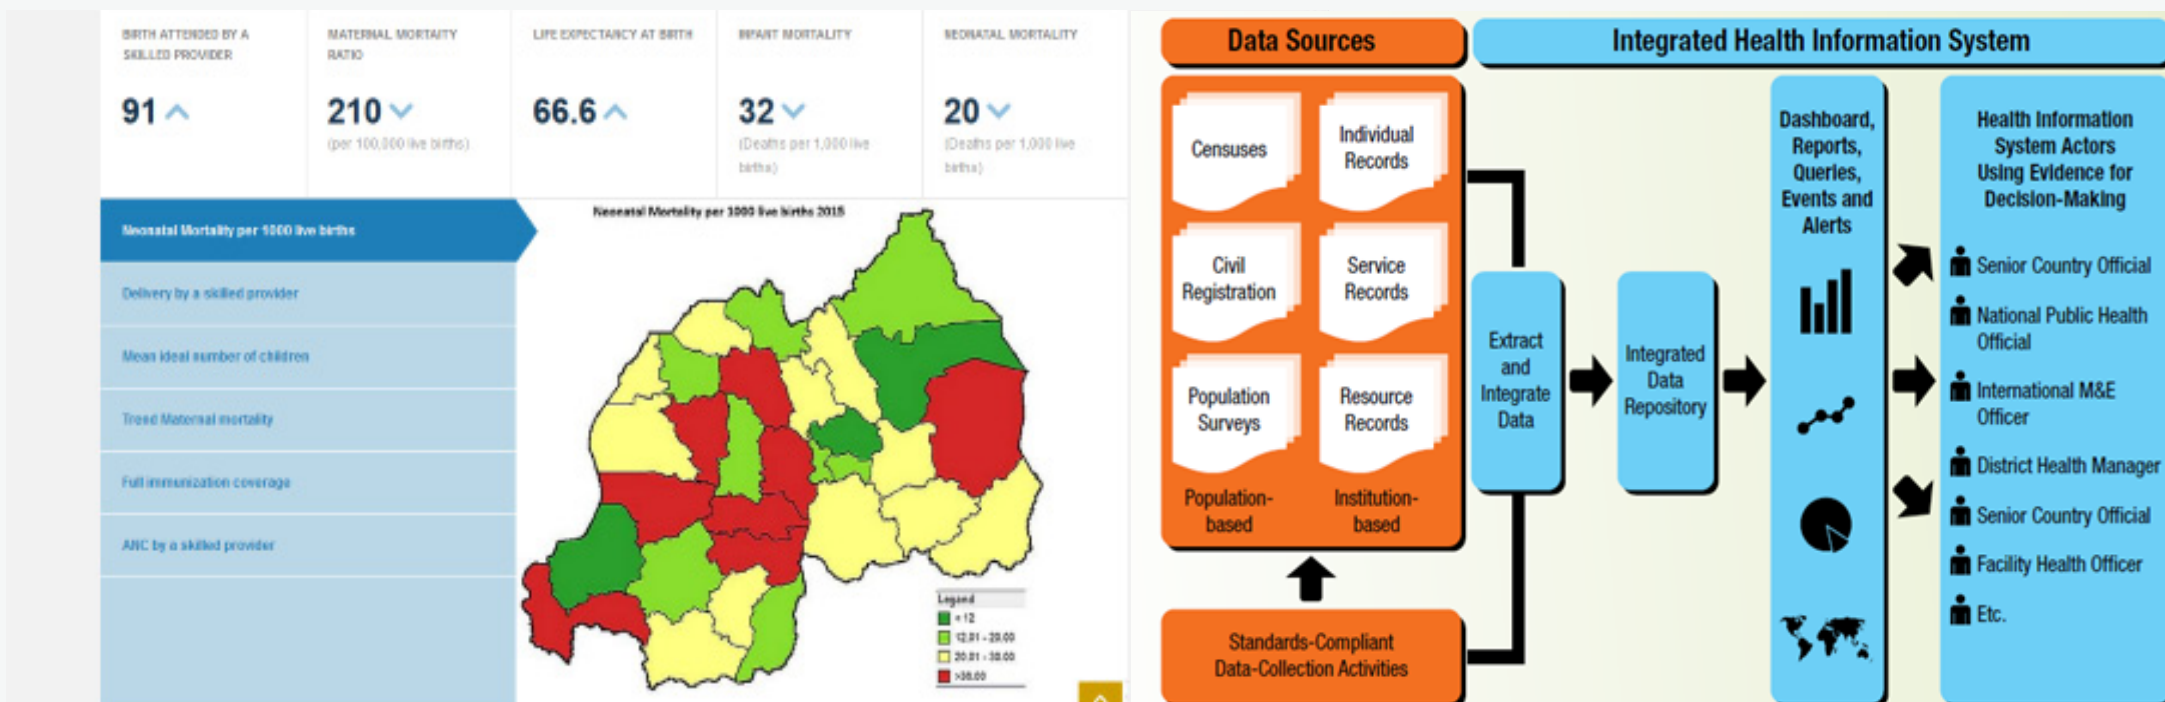

## What is the R-NHO?

The Rwanda National Health Observatory (R-NHO) is an online platform which serves for the generation, analysis and sharing of high quality health information.

## The Mission is to provide:

- High quality data and statistics
- Comprehensive and analytical country profiles
- High quality thematic publications
- Dynamic and vibrant networks and communities of practice

## How the R-NHO reinforces the health system:

## The Vision:

Contribute to the strengthening of the health system by promoting accessible quality health information for decision making and action; providing monitoring and evaluation in support of national health and development planning; and serving as a valuable partner of the African Health Observatory (AHO).

## Key features:

- Multidisciplinary team
- Data Warehouse located in the MOH
- Selected indicators-tracked regularly and tailored to monitor progress towards the HSSP IV and SDGs
- Dashboard on different themes and topics
