PUBLIC HEALTH ACTION (S)

- The country continues to conduct genomic sequencing to detect the COVID-19 variants circulating in Namibia.
- Commencement of consultations and scoping work for the introduction and utilization of Digital Vaccination Certificates solutions in Namibia.
- The COVID-19 vaccination programme is ongoing throughout the country.
- Public Health measures continue to be enforced as the situation is closely monitored.
- > The government and development partners continue to prioritize the continuation of essential health services.

CHALLENGES

Slow vaccine uptake among members of the public, and circulation of anti-vaccination information.

RECOMMENDATIONS

Encourage the public to get vaccinated and strengthen community health awareness to encounter antivaccination information in circulation.
