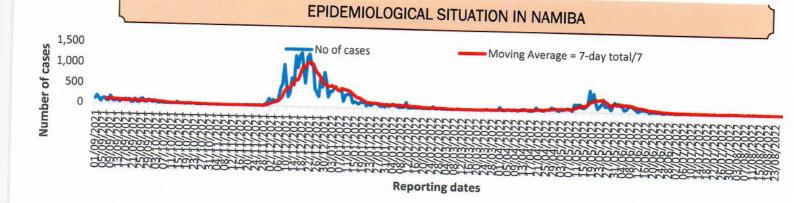

Figure 2: The 7 days moving average line chart for confirmed COVID-19 cases, 26 August 2022

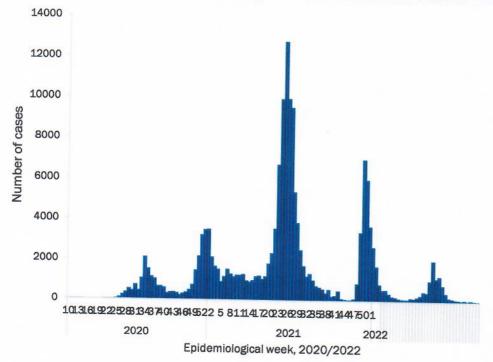

Figure 3: Epi-curve for confirmed COVID-19 case, 26 August 2022

- The highest peak of 12 787 (8%) cases was recorded during week 25 of 2021 (Figure 3).
- The country has started seeing a gradual reduction in the average number of confirmed cases from 1424 to 29 from epi-week 26 to 40 of 2021.
- Another peak of 7005 cases was recorded in week 50 of 2021
- The number of cases have started decreasing in the last three weeks as seen on the graph.
- The National Call Center continues operations for 24 hours daily.
- Today (26/08/2022), 177 calls were answered.

Table 4: Number of people in quarantine 26 August 2022

- Since March 2020, 98 195 people have been placed into quarantine around the country.
- A total of 33 people are currently in quarantine, with 0 new admissions.

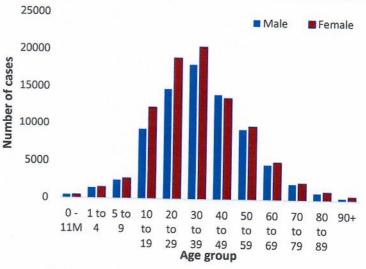

Region	Newly quarantined 24 hours	Cumulative number	Number discharged	Number in quarantine now

Table 3: COVID-19 specimen recorded at the Laboratories 26 August 2022

VARIABLES	TOTAL
Total samples received by the Laboratory	1 075 858
Total samples tested	1 056 087
Total samples re-tested	19 654
Total positive results	166 655
Total negative results	889 266
Total samples discarded	117
nvalid results	0
Total pending results	0
ndeterminant/Inconclusive	166
Suspected cases in 24 hours (excluding re-tests)	240

- Of the total confirmed cases, 99 940 (60%) are in the 20-49 years age-brackets which constitutes the majority of the recorded cases.
- A total of 26 734 (16%) of the confirmed cases are among the 5-19 years category.
- A total of 19 140 (11%) of the confirmed cases are among the 50 59 years group.
- The under 5 years age group make up 3 722 (2%) of the total cases whereas, 17 119 (10%) are above 60 years of age.

- The laboratory testing capacity has been enhanced; with a total of twenty-three (23) laboratories carrying out the testing of samples: NIP, Path-Care, UNAM Molecular, Central Veterinary Laboratory, Namib Poultry, NAMDEB, NamPath, Namibia Central Pathology, DiagnoLab, High Care, Alpha Medical Laboratory,NCP, Maerua MC, Des-Jo Medical Test Centre, ProQuest Diagnostic Laboratory, MAXI, Medlink Laboratory Services, Biotech Medical, Covisure, Star Care, Soweto Medical Center, Hosea Kutako International Airport & Oshana Med Laboratory.
- To date, 1 075 914 tests (including 19 654 re-tests) have been conducted by authorized laboratories.
- Since the beginning of the outbreak, 178 373 contacts of confirmed cases have been identified, 0 contacts were identified within the last 24 hours from 10 regions.
- Cumulatively, 176 195 contacts have completed their monitoring period, while 300 contacts are lost to followup and a total of 29 278 (18%) contacts of confirmed cases have tested positive.
- Today, 25 (100%) out of 25 active contacts were monitored.

PUBLIC HEALTH ACTION (S)

- The COVID-19 vaccination programme is ongoing throughout the country.
- The public is encouraged to continue adhering to COVID-19 preventative measures as the situation is being observed.
- The government and development partners continue to prioritize the continuation of essential health services.

CHALLENGES

- Slow vaccine uptake among members of the public, and circulation of anti-vaccination information.
- Lack of transport to and from head office for sitrep signature.

RECOMMENDATIONS

- Encourage the public to get vaccinated and strengthen community health awareness to counteract anti-vaccination information in circulation.
- MoHSS must provide transport that will be available for sitrep team everyday or use digital signature.
