

# WORLD HEALTH ORGANIZATION

TANZANIA COUNTRY OFFICE

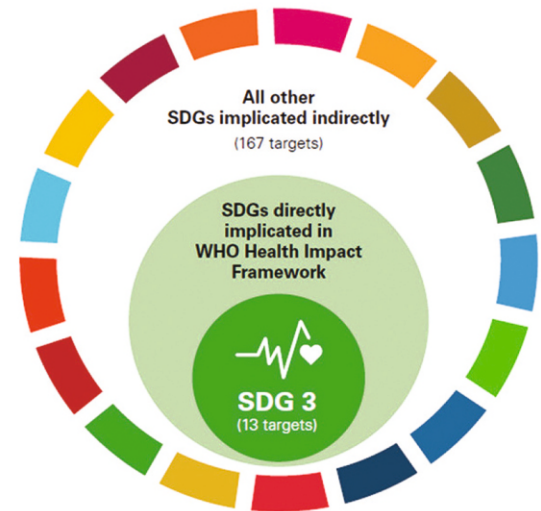

# ABOUT US

The World Health Organization (WHO) is the **Lead Health Agency** of the United Nations.

Founded in 1948, it connects nations, partners, and people to promote health, keep the world safe and serve the vulnerable – so everyone, everywhere can attain the highest level of health.

# ALIGNING OUR WORK WITH THE SDGs

We aim to reach the **"Triple Billion"** through the implementation of WHO's General Programme of Work (GPW) to be on track for delivery of the SDGs targets by 2030.

## SAVE LIVES

Ensure full access to immediate-impact interventions

## PROMOTE WELL-BEING

Empower people to lead healthy lives and enjoy responsive health services

## PROTECT HEALTH

Anticipate and mitigate disasters and environmental and emerging health threats.

## OPTIMIZE THE HEALTH SYSTEM

Overcome a fragmented structure to achieve universal health coverage.

## USE PLATFORMS FOR HEALTH

Support health in all settings.

# 5 STRATEGIC PRIORITIES for WHO

# WHO IN TANZANIA

WHO has been working in Tanzania from 1962 and the organization has been working closely with government, CSOs, health and development partners across various sectors to improve everyone's ability to enjoy good health and well-being. With a spirit of collaboration and a steadfast commitment to science, WHO advises the ministries of health and other sectors on public health issues and provides support to plan, implement and monitor health programs.

Through effective use of resources, the organization focuses on delivering real change at a country level and integrating transformative actions towards achieving universal health coverage; addressing health emergencies; and promoting healthier populations.

# DELIVERING AS ONE WITH PARTNERS

In Tanzania, WHO represents the directing and coordinating authority on international health within the United Nations system, adheres to the UN values of integrity, professionalism and respect for diversity.

Our values reflect the principles of human rights, universality and equity established in WHO's Constitution as well as the ethical standards of the Organization.

These values are inspired by the WHO's vision of a world in which all peoples attain the highest possible level of health, and our mission to promote health, keep the world safe and serve the vulnerable, with measurable impact for people at country level. We are individually and collectively committed to put these values into practice.

## WHAT WE DO

WHO Tanzania leverages strong health systems to protect communities against emergencies, reduce/control exposure of individuals to risk factors and improve efficiencies in the health sector.

## OUR FOCUS AREAS

Operations and programme interventions of WHO in Tanzania are guided by our Country Cooperation Strategy (CCS).

## THE FOUR PRIORITY AREAS IDENTIFIED UNDER THE CCS:

Strengthen health systems to ensure universal access to quality Reproductive maternal, newborn, child and adolescent health (RMNCAH) and other essential health services.

Reduce/control exposure of individuals to risk factors that threaten their health and well-being.

Protect communities against emergencies of infectious diseases and other public health events.

Improve efficiencies in the health sector through better, equitable health governance, leadership and accountability.
